THEATRE STUFF

Play Proves Anything Can Happen Beneath Quadra Moon

Many islanders already concur: "anything" can happen under the Quadra moon. Upcoming performances of "The Smell of Money", written by islander Allen Perkins, will doubtless confirm any lunar suspicions. Imagine a send-up of "The Sound of Music" with parodies of many of the songs, plus a couple bonus songs from "Hair" thrown in, "and a strong streak of Quadra quirkiness" adds Perkins.

The Smell of Money features well-loved island actors Julie Douglas, John Nursall, Guy Holmes, Karen Holmes, Ford Cannon and more. It's directed by Chris Thompson, with musical direction by Linda Cannon, produced in cooperation with Theatre Quadra. Is Quadra worth plundering? Will a U.S. invasion bring "democracy"? Can the moon effect change? See The Smell of Money and discover the answers: January 30 and 31 at the Heriot Bay Inn. \$34.95 includes a two course dinner in Herons at the Heriot Bay Inn; show only \$20/per person. Advance ticket purchasing strongly recommended, call 250.285.3322 to reserve.

Quadra Youth Theatre presents: The Groom

Even though The Groom has yet to be staged, rave reviews have started pouring in. George Romero called it, "The love story I wish I'd written." The Tin man said, "I feel like I have a hole where my heart should be." The dread pirate Roberts said, "Until I saw The Groom, I thought I knew what true love was." The Groom is the story of young Maria, a recent immigrant who left persecution to seek a new life on Quadra. Forced to live in Open Bay, she soon becomes desperate to find love. As we all know, Open Bay has a dearth of eligible soul mates for a young female genius; so what's a girl to do? If you were a normal girl you might join the Quadra Youth Theatre in the hopes of finding a beau. If your last name is Frankenstein, however, you just might decide to build your own sweetheart.

All boyfriends are a DIY project to some extent, so Maria figured building one on Quadra wouldn't be much of a problem. It didn't take her long to assemble all but the last piece of her would be groom, but finding the perfect brain has proven to be a problem. It's such a big problem that when our story opens she only has until midnight to find a brain.

Will Maria get the help she needs? Will true love prevail? Come out on March 6, 7 or 8 and watch while some of the best young actors and musicians on the planet play their way into your heart. This is a love story like you've never seen before.

Let there be love! jazz! and fine dining!

NEWS & EVENTS

Greetings from Goosefoot Farms

Happy New Year from Goosefoot Farms! Before we sow the first seeds of the year we would first like to express our deepest appreciation for everyone who joined our 2014 vegetable box program, as well as for everyone else who visited and supported our little farm over the course of the season. Community Supported Agriculture is a partnership between food growers and their communities, and we couldn't imagine a more supportive community in which to farm than Quadra. We are tremendously excited about the 2015 season, during which we plan to expand our planting area significantly and to produce a wider variety of vegetables than ever before.

If you are curious about how our vegetable box program works, now is a great time to find out. Please email us at nassichuk@gmail.com and we will send you information regarding the 2015 vegetable box program in February. We can also be reached by phone at 250 202 2326, and www.goosefootfarms.com is worth a visit more information and photos of past harvests.

Well, I guess I had better just jump into this one since I missed the last deadline due to other commitments. There is a lot going on both at the Regional level and within our own area. So here we go... a small sampling of issues I am dealing with.

UBCM

I will be leaving for Vancouver tomorrow to present at the Union of BC Municipalities Forum called the Local Government Leadership Academy. This is an annual event but especially important this year due to the large turn over of elected officials in this past general election. I will be part of a panel of "seasoned" elected representatives that will mentor the others that are new to their positions. It should be informative and interesting and is always an opportunity to learn new things and compare notes with other areas of the province. It will also be a great opportunity for me to convince non-coastal folks of the importance of supporting the UBCM Policy paper on BC Ferries. (I just had to mention ferries!)

I would also like to notify you that the UBCM Executive Board had two vacancies to fill due to the last general election and the Past President called me last night to tell me that the Board had voted yesterday to ask me to sit as a Director at Large on the Executive. I accepted, so am now once again on the Executive of the UBCM and in an even better position to deal not only with Ferries but many other issues that effect us provincially.

Federal presentation

On Wednesday the 21st, right after the UBCM Forum, I will be attending and presenting, by invitation, to the BC Caucus of the Federal Conservative Party. This includes all of the MP's, Ministers and Senators from BC. Can you guess the topic? If you guessed BC Ferries you are right. I have worked with the consultant who did the UBCM paper for us and have come up with a half hour presentation that will possibly be a game changer in this ongoing battle with the provincial government over BCFS. This is an election year for the Federal government and I am trying to maximize on that fact. I came up with this idea on my own and have worked at it for the past many months to bring it to fruition. I'll let you know how it turns out.

Meeting with Premier's Chief of Staff

Hot on the heels of the federal presentation I will be meeting with Dan Doyle, who is the Chief of Staff for the Premier. He is her main advisor and has been in government as long as I can remember. I will be bringing him the results of my federal efforts and outcomes. This once again, could be a game changer in the BCFS battle with the province. Arrangements for this meeting have been ongoing since September! Crazy, how long it takes to get through the gatekeepers! As you know, giving up is not an option for me.

Seniors Survey

By the time you read this the deadline will have passed for turning in the completed survey. It is extremely comprehensive and will give us a great deal of information regarding our next steps in providing for seniors and for other types of housing needs on the island. I sincerely hope that you have filled it out and returned it.

Fire pumps for RD docks

During the last two foot snowfall in Granite Bay, our Park contractor, Mark, took it upon himself to shovel off the 320 foot by 8 foot wide dock at the G. Bay wharf. I talked with ex-ferry personnel about what I remembered as ferry crews blasting off snow with salt water fire pumps and it seemed to work great. So after investigation, I convinced the SRD to contract a local supplier to supply a salt water portable pump for the dock and then to look into supplying them for all of our docks over time. They will also come in very handy in the event of a fire at the dock or in the surrounding areas. I insisted that they use local suppliers and expertise and they agreed! So a bit of income for Quadra Island business. I do try to keep our tax dollars at home.

BC Ferries meeting re: Schedule changes

In spite of the huge number of complaints that I have gotten since our present schedule was imposed on us, only about three dozen people turned out at the meeting last Wednesday night to discuss possible changes to the schedule to make it better for the greatest number of people. Good discussion was had regarding the option that had been discussed

by the Ferry Advisory Committee. It was posted online for people to see prior to the meeting. After much discussion, that option was modified slightly and then sent off to BCFS for implementation. We asked for a Feb. 1st time frame and they said "No", so we asked for the end of February. They want to wait until April 1st, but we have told them that is not on. We will see what their reaction is very shortly.

SRD Communications

In the interests of openness and transparency, one of our strategic priorities for this past year has been to implement a communications plan. The website has been made more user friendly and just recently we have put in place a newsletter of some of the things going on at the SRD. The contact info for the newsletter is <http://www.strathconard.ca/srd-newsletter> I am sure it will improve with age as we are able to add more information to share with the public. Have a look!

Quathiaski Cove sewer issues - two of them!

The first one that I would like to bring to your attention is an easy one: To consider the adoption of Bylaw No. 212 and 213 which propose to include 2 additional properties located on Pidcock Road into the boundaries of the Quathiaski Cove Sewer Service Extension and authorize a loan authorization amendment. These are on the existing sewer line but not in the district so we had to amend the boundaries. You would think this would be a simple process but staff were getting no cooperation from the Inspector of Municipalities office.. So I called her direct and we had the approval the next day. Gotta love telephones!

The bylaws were given third reading by the Board on November 27 and September 17 respectively. So after all of that it would now be in order for the Board to proceed with final passage and adoption. And we did. So those two properties are now able to join the system.

The second issue was an update that the Quathiaski Cove sewage extension project is now underway

At our first meeting of 2015, the Regional District Board of Directors was updated on the status of the Quathiaski Cove sewage extension project. After a successful Request

For Proposal process, staff awarded the engineering services contract to Koers & Associates Engineering Ltd. Koers will be responsible for the engineering design, the construction tender management process and supervision of the construction of approximately 1.5 kilometres of sewage extension, providing sanitary sewer service to an additional 38 properties on Quadra Island.

The engineering design process of the main sewer line has already begun. Koers' expected work schedule indicates the construction tendering process will take place in March and April, with construction tentatively scheduled to begin in May. Hopefully our local contractors will be in touch with the managers to secure some work for local people. This is always a goal of mine.

Regional District staff will work closely with Koers to communicate progress of the work as it moves forward. A project newsletter will be developed and sent to all property owners and interested stakeholders, and will soon be available on a dedicated project web page on the Regional District website. Look for both in the coming weeks under Engineering Services at www.strathconard.ca.

Cook Welcome Poles restoration

The SRD was recognized by the Nyumbalees Cultural Society for its contribution to the restoration of these poles that are now known as the Dick Family Welcome Poles. Areas C (us) and Area B (Cortes) contributed along with several other community partners to support this important legacy project that helped to re-establish the traditional presence of the welcoming poles. The poles are located at the entrance to the Centre and are an important part of the history of this region.

Tidemark Theatre change of hours for US!

We had a presentation from the Tidemark Theatre senior staff to ask for funding for the Theatre. When she showed where their \$500,000-plus revenues from ticket sales came from it showed that 3% came from Quadra Island. (that is \$15,000.00) I took the opportunity to let the CR side understand a little better what the changes to our Ferry service are doing to the region, not just

Quadra. Voila!. \$15,000.00 dollars lost in direct revenue and then all of the money possibly spent on dinners out beforehand. With the present schedule it is impossible to stay for an entire performance that people have paid handsomely for.

Much to my surprise, due to my comments about our unworkable ferry situation, we got this back from the Society:

Dear Strathcona Regional District Directors:

Re: BC Ferries

In order to accommodate our patrons that are on Quadra Island, I have asked staff to research the ferry schedules and give consideration to starting those shows that are presented by the Tidemark Theatre Society at 7 pm. Our hope is that this will allow our patrons that reside on Quadra to catch the last ferry back at 9:55 pm.

This not only helps us, but of course, benefits the Society's revenue. But it is a start in having the people on the CR side realize that this is not just a Quadra issue.

OK.. That has got to be enough for this report... I still have to write my Federal presentation and one for the UBCM Forum tomorrow. So, feel free to call me between the hours of 8:30 am and 7:00 pm, Monday through Friday (please, not on weekends, folks!) at 285-3355, or you can fax me at 285-3533 or you can email me anytime at jimabram@xplornet.ca or by mail at Box 278 in the Cove, V0P 1N0... or on Facebook at <https://www.facebook.com/JimAbram>.... If it is important, my cell is 250-830-8005... Lots of choices.

Please do not use my residential phone number for SRD calls. All business calls should be on 285-3355. Many thanks!

Quadra Seniors

As winter continues, it is not bad for the seniors so far. But I am looking forward to the Spring and the garden.

At our last meeting Ann Lawrence, who was our delegate to the 2014 convention, gave us a very educating talk regarding our speakers. The Provincial Seniors Advocate Isobel McKenzie and lawyer Tannis Braithwaite from B.C.P.I.A.C.- We also enjoyed speaker Margaret Vershuur who invited us to a course on estate planning. A pot-luck lunch was enjoyed with new members who are always welcome. For 2015 membership contact Nancy Allwarden @ 2933. For Armchair exercises & Carpet Bowling contact Ann @3325.

To get ready local climbers will be having a work party and crag-orientation over the weekend January 31- February 1 at Chinese Mountains.

We'll meet at 10 am Saturday and Sunday morning and spend the day along the Beech's Mountain (west side) trail improving access to the crags and identifying new climbing routes and bouldering problems.

If you're just curious or a hardcore crusher this is a perfect opportunity to check out the local climbs, meet other Quadra climbers and contribute to our very promising climbing resource.

Quadra Climbers would like to thank Jim Abram and the Strathcona Regional District for a \$500 grant and Quadra Builders for their ongoing support.

For more info join us on [FaceBook.com/QuadraClimbers](https://www.facebook.com/QuadraClimbers)

FROM BACH TO PIAZZOLLA

Quadra Island may be a long way from the great concert halls of the world, yet we're still privileged to experience truly world class live music.

On Friday, Feb. 6th the Cultural Committee presents the internationally acclaimed Ensemble Vivant at the Quadra Community Center. Ensemble Vivant has been hailed as "Canada's Chamber Music Treasure." Their recordings and concerts throughout North America and Europe are performances at the highest level of music-making.

Led by pianist Catherine Wilson, with Cory Gemmell, violin, Sybil Shanahan, cello, Norman Hathaway, viola and jazz great Don Thompson on vibes and piano, Ensemble Vivant has won international recognition for their passion, virtuosity and sublime musical sensitivity. Expect a genre-diverse concert, including arrangements written exclusively for the group by some of today's greatest jazz composers.

Virtuoso pianist and recording artist Catherine Wilson is one of Canada's most talented and innovative pianists. She has been repeatedly honoured for her exceptional artistry and sensitive musicality as well as her unique, imaginative programming. Since the beginning of her performing career, Catherine's repertoire has run the stylistic gamut from the genius of Bach, to the poetic beauty of Chopin, the elegant delicacy of Debussy, the syncopated rhythms of ragtime

and tin pan alley, Latin, jazz and the sensuous tangos of Piazzolla, as well as newly composed works in these diverse genres.

Five seasons ago, jazz legend and west coast native Don Thompson, O.C., joined the group in concert and recording. Well known in the jazz world as a brilliant multi-instrumentalist, he has enriched the jazz repertoire of the group with arrangements and compositions of his own.

Inspired by his association with Catherine Wilson and Ensemble Vivant Don wrote: "I've been a professional musician for the past 50 years and during that time I've worked with some of the greatest musicians in the world, from Glenn Gould to Oscar Peterson. But the passion and beauty of Catherine Wilson's piano playing is overwhelming. She is a beautifully gifted pianist and musician with a depth of feeling that separates her from the rest. I am honored to be part of her music and honored to join Canada's world class Ensemble Vivant."

With an exciting program drawn largely from two of their eleven recordings, "The Fugue Project" and "Latin Romance," this concert should change any preconceptions of Chamber Music.

Doors open at 7p.m., concert begins at 7:30. Advance tickets are \$17 and are available at the usual outlets: the Music Plant in Campbell River, Inspirations in Quathiaski Cove and Works of H'Art in Heriot Bay. Tickets at the door will be \$20.

Workshop - Social Media for Artists

January 24 - 10 AM - 2 PM at the Community Centre

The way that artists promote themselves and events that showcase their work has changed since the advent of social media. Understanding tools such as Facebook, Twitter, Pinterest, etc. is now an important skill for creative people wishing to get their art known. This workshop will help artists and craftspeople understand how social media works and how to get set up to start using these opportunities. There is no fee for this event - but please bring a small gift from your studio for our presenter. Bring a lunch, a laptop if you have one (or a tablet or smartphone) and some material to work with (photos, some text describing yourself and your work).

Questions - contact Kathryn: kamanry@gmail.com / 285-2103.

HEADLINE

Quadra Island Salmon Enhancement Society January 2015 Report

Salmon counts for the fall 2014 spawning season are now in and as follows;

Open Bay Creek – 3061 chum

Granite Bay Creek – 710 chum, 155 coho, 1 jack

Village Bay Creek – 494 chum, 140 coho, 10 jacks

Village Bay Lakes fence - 849 total 737 coho, 68 chum and 44 jacks.

Drew Creek – 4 chum, 14 coho, 1 jack

Hyacinthe Creek – 3410 chum, 2 coho

Heriot Bay Creek – 2 coho

McKercher Creek – approx. 200 pinks

Please note a couple of things. First the healthy counts in a couple of our creeks especially Open Bay Creek and the relatively small count from Village Bay Creek. The latter was a result of very high water due to the heavy October rains which raised the water level in the lakes by more than a metre and thus the flow down the creek. The flow was so strong that counters could not see into the water and get any kind of accurate numbers. It is also felt that, because of the powerful flow, that chum, which normally spawn here, might have had a difficult time completing their spawn. We saw evidence of chum spawn in a nearby feeder creek so they do their best to complete the life cycle.

As to the coho count at the fence, the water crested the gates for several days, allowing coho to easily jump over the gates without having to swim through the counting box. You might also notice the pink count from McKercher Creek. As pink are usually early spawners, when we have little water in our creeks, this late, large count in McKercher (feeder into Hyacinthe) is definitely an anomaly. Thanks George Murdoch, for reporting in.

It is the time of year for us to give thanks, first to Bruce Bjornson for doing our monthly books, to Laurie Brydon for our annuals and to Tru Value Foods for the fabulous points system. We could not operate without all of you and the QISES members who contribute through annual fees. Finally, a big thanks to Graham Mackay (retired treasurer) for all the hard work and dedication during his years with QISES.

Writing Your Advanced Care Directive: Putting Pen to Paper

Monday, February 2, 1-3 pm Quadra Island Bible Church, Lower level.

This is the first session for those who have given some thought to what they would like their Advanced Directive to contain and are ready to start writing. Join Betty Doak and Pat Peterson NP(F). We can help answer questions, provide some direction, and introduce some tools that may help simplify this task. The goal: to provide a document ready to sign, seal and deliver! Please call 285-3590 to register.

Q. I. Emergency Preparedness

You receive an Evacuation Order.

Without any warning the police/fire department arrive at your door to inform you the propane tanker has over turned within 100 m of your home and you must evacuate now. With no time to waste, you grab the kids, dogs, (cat has disappeared) and your bag and head out, remembering to turn off the stove. You cannot start your vehicle for safety reasons and must walk to a safe area where a bus will take you to a Reception Centre. You have no idea how long you will be there and you have nothing with you, no medications, no change of clothes, no pet food, etc. The children are upset, pets cannot be let into the centre and your cell phone battery is low.

At a Reception Centre, you will find a safe environment. You will be offered refreshments and the ear of people who know how to help you. There will be people to care for your pets outside the centre and up to date information on the event will be provided. If you need somewhere to stay overnight that can be arranged when you register. But think how much less stressful the whole event would be if, when the evacuation announcement came, you could pick up an already packed bag for each member of the family and leave. These are your Grab and Go bags. Think about what you and your family require and especially think about any medications you may need. There should be enough medications for at least 3 days in the bag and 7 days would be better. Be prepared.

Pat's Health Corner EBOLA!

While most of us have followed the news with regards to the ongoing epidemic in Africa and the outbreaks in the United States, how much have we read about the actual disease and its transmission?

Ebola and its cousin Marburg are termed filoviruses, filum being Latin for 'thread-like'. They are among the most virulent in the world. With this current outbreak, the fatality rate approaches 70%. Previous outbreaks have had fatality rates as high as 80-90%.

Both are also called hemorrhagic fever viruses based on their symptoms, which included bleeding and systemic shock.

The Marburg virus is considered a single species while the Ebola virus is divided into 5 different variants whose virulence differs in humans. Of the 5, the Reston virus has a reservoir in animals, and was found initially in the Philippines.

This current outbreak in 2014, caused by the Zaire subset of Ebola, is by far the largest Ebola outbreak known. As of November 11, 2014, the number of probable cases tallies 14,415; of these 5177 have died. This includes 570 health care workers.

Outbreaks typically occur through human contact with an infected animal (meat or blood). Human to human infection is through direct contact with blood, body fluids or the skin of the infected individual or those who have died. Infected individuals are contagious only when symptomatic. As the disease progresses, the risk of passing it to others increases.

The virus enters the body through mucous membranes, a break in the skin or parentally. It replicates rapidly in a variety of the body's cells and is spread through lymph. It causes systemic inflammation and breakdown (sepsis) as well as bleeding.

Initial symptoms include fever, headache, fatigue and malaise 6 to 12 days (but can be up to 21 days) following exposure. Diarrhea and a rash can also occur. Bleeding occurs later, commonly but not always in stool. Many die of multi-organ failure and sepsis (whole body infection). In nonfatal cases, individuals start to improve one week after diagnosis.

At present, there is no known cure. Care is largely supportive, maintaining fluid, controlling infection and its sequelae as well as bleeding. Research is ongoing with regards to a vaccine for prevention.

Fundraiser-Coffeehouse a True Success!

Thanks, Quadra! So much Island Love and Light for Sunday Dennis! Our community rose magnificently to the challenge of raising funds for Sunday's medical expenses. Together we raised \$22,399!

So many THANK YOU's to our generous, kind-hearted community for all you did to make the fundraising coffee-concert such a resounding success. Thanks for donating so many fabulous items, baking and serving such delectable treats, spending your savings, volunteering to create such a great event, and paying it forward.

As of this writing Sunday is still in LA near UCLA where she had her brain surgery. She is on the road to healing, finding joy in the moments and feeling strengthened by so much love and support. Her healing path may be long, please keep her in your thoughts and prayers.

Junkyard Exhibit

A new temporary exhibit opening Friday, January 23 at the Museum at Campbell River is sure to interest car buffs and junkyard enthusiasts alike. The exhibit is entitled **Rust in Peace: Island Junkyards of the 1970s, a photographic retrospective**, and has been curated by photographer Rick James. James' images in black and white declare its subjects as works of art that have become integrated into the surrounding landscape. Many of the vehicles are entirely overgrown with vegetation and look as if they have truly found their last resting place.

Along with James' collection, there will also be photos of the breakwater at Oyster Bay taken when the derelict ships that comprised the breakwater were still visible.

Come visit us to take in this one of a kind exhibit. The Museum is at 470 Island Highway and is open Tuesday to Sunday from 12:00pm to 5:00pm. And don't forget, Tracks 'N Trains will be up over the weekend of January 24 and 25! For further information, contact the Museum at 250-287-3103.

Lois Aileen Terreberry

February 26, 1936 - January 6, 2015

It is with deep sadness that we announce the death of our much loved Lois who passed away peacefully at New Horizons Care home in Campbell River, BC after a 10 year battle with Alzheimer's disease.

Lois is survived by her husband Ralph; sons Craig of Paris, ON (Terry) and Roger of Piney Flats, TN (Jade); daughters Cindy of Campbell River (Al) and Carol Ann of Quadra Island (Ian), daughter-in-law Theresa, sons-in-law Tom and Richard; grandchildren Dale, Bobbie, Kellie, Andrea and Brayden and great-grandchildren Jackson, Alex, Bryan, Johnathan, Christopher, Kyver, Gunner and Kelsey.

Lois was predeceased by sisters Alethe Rice of Lindsay, ON and Rita Whitaker of Welland, ON and her grandson Shane Terreberry of Myrtle Beach, SC.

Lois was a beautiful, gentle soul and was loved by all who knew her. She was a bookkeeper, seamstress, knitter, quilter and golfer. She played the accordion and piano. Everything she did she did well and with much love.

Lois and Ralph were married June 1955 in Welland, ON and she moved with Ralph to Detroit, MI where the four children were born. In 1963 they moved to Cordoba, Argentina for 5 years and in 1969 the family returned to Canada and made Port Colborne, ON home. Lois and Ralph retired to Quadra Island in 1992. Lois passed away in her 60th year of marriage.

The family wishes to thank the nursing and care aide staff at New Horizons for the care they provided Lois during the 5 plus years that she lived there. Additionally many thanks to Dr. Deiter deBruin

Friends are invited to celebrate Lois's life at the Coast Discovery Inn's Quadra Room on Saturday February 14th at 1:30pm.
